

PRODUCT SHEET

MANGO & BANANA

Tamil Nadu | Variety, maturity and arrival planning

Our farm grows mango and banana. Tamil Nadu varieties and harvest windows differ, so the commercial grade must define both packing condition and intended arrival condition.

Mango examples	Banganapalli, Totapuri/Bangalora, Neelum, Rumani, Imam Pasand, Malgoa
Banana examples	Nendran, Red Banana, Poovan, Robusta, Rasthali
Origin	Tamil Nadu / South India; variety and source confirmed
Packing	Export cartons with protection confirmed per fruit
MOQ	Typically 1 x 20ft reefer FCL; air/mixed feasibility confirmed

BUYER MUST CONFIRM

- Exact variety and intended use
- Count, weight or size band
- Maturity at packing and arrival ripeness
- Firmness and Brix test if requested
- Allowed skin marks, bruising and sap burn

ORDER-LEVEL CONTROLS

- Confirm variety and harvest/market lot
- Grade for size, maturity and visible defects
- Approve carton and protective material
- Agree temperature, ripening treatment and transit plan

REGIONAL / REGULATORY CONTEXT

NHB lists Banganapalli, Bangalora, Neelum, Rumani and Mulgoa among Tamil Nadu mango varieties. Actual availability is confirmed by season and lot.
